

THE

"Bombardier"

SNOWMOBILE

ITS PRINCIPAL ADVANTAGES

→ Makes and maintains its own roads, regardless of Winter storms.

→ Can go anywhere a ski-runner, a snow-shoer can go.

→ Can travel at 45 miles an hour and quickly transport passengers and materials.

MANUFACTURED BY:

L'AUTO-NEIGE BOMBARDIER LIMITEE

VALCOURT, P. Q. — CANADA

THE "Bombardier" SNOWMOBILE

SOLVES
ALL THE PRESENT PROBLEMS OF WINTER TRANSPORTATION
AND EFFECTIVELY
SOLVES, EVERY DAY, OLD AND NEW PROBLEMS
OF CIRCULATION ON SNOW

This snowmobile is the result of more than twenty years of research and experimentation.

The "Bombardier" suspension not only ensures the maximum comfort to passengers but reduces to a minimum the pressure of the vehicle on the snow.

The bottom of the chassis is shaped like a toboggan so that the car slides regardless of the depth and compactness of the snow.

The powerful Chrysler industrial motor, well known for its sturdiness, with which the Bombardier Snowmobile is equipped explains the exceptional endurance which makes this car the most popular and efficient Winter vehicle in the world.

1 AMBULANCE

As an ambulance the "Bombardier" has contributed to save many lives, by quickly transporting sick or wounded to hospitals.

2 MOTOR BUS

Every one can, in Winter, attend to business or make trips as will now that the snowmobile ensures regular bus service.

3 FORESTRY OPERATIONS

In future, fresh fruits and vegetables will be part of the regular menu of woodsmen who are no longer isolated from the rest of the world during the Winter.

4 PROSPECTORS

Prospectors can now have an effective Winter car allowing them to carry on their research work the year round.

5 WINTER SPORTS

The snowmobile permits the sportsman to enjoy longer his favorite sport and to easily reach his preferred hotel or chalet.

6 TELEPHONE AND POWER TRANSMISSION

Telephone and electric services are quickly re-established, thus ensuring the satisfaction of users and customers.

7 DOCTOR

How many lives have been saved since it is possible for the doctor to quickly respond to emergency calls, regardless of temperature and road condition.

8 MAIL

Mail deliveries are as regular in Winter as in Summer.

9 FISHERIES

Companies that exploit fisheries on lakes have a powerful ally to help them to quickly transport their products and thus avoid serious losses.

10 SCHOOL BUSES

Children go to and come back from school quickly and safely even during the worst storms.

11 RESCUE WORK

With the "Bombardier" rescue work can be done quickly, even if an accident occurs where no roads exist.

12 TRANSPORTATION

Transportation of merchandise goes on ceaselessly and as well as on good roads even if there are 5 or 6 feet of snow.

NOTES ON CONSTRUCTION AND USES

This model of snowmobile, light though sturdy and of remarkable endurance, is equipped with caterpillar traction and skis which ensure the same result on snow as have snowshoes.

The Chrysler motor, which develops 115 h.p., ensures a sufficient reserve of power to permit the Bombardier to go through the roads that are encumbered with high snow even during the worst storms, while carrying 12 passengers or the equivalent weight.

The owners or users of these snowmobiles now laugh at the storms, which formerly paralysed their operations and confined them to the one spot during a number of precious hours.

SPECIFICATIONS

| | |
|----------------------|---------------------------------------|
| Motor | Chrysler T120 |
| Transmission | Standard Chrysler |
| Differential | Hypoid Chrysler |
| Wheel base | 42 inches |
| Caterpillar traction | endless Width 17½" Length 22'6" |
| Skis | (2) Moccasin type 12" x 60" |
| Tires | (8) 4.50 x 16 |
| Weight | 3,400 lbs. |
| Bearing surface | 5,000 square inches |
| Pressure on snow | Less than ¾ lb. per square inch |
| Capacity | 2,000 lbs. or 12 passengers |
| Maximum speed | 45 miles an hour |

PRINTED IN U.S.A.
